

Calum Jarvis

BSc Computer Science

Personal Profile

As a recent graduate from the University of Huddersfield, I hold a First Class degree in BSc Computer Science. Throughout my academic journey, I have nurtured a profound passion for creating digital artifacts across various mediums. In recent years, my focus has particularly gravitated towards web development, driven by my exploration of different computer science disciplines during my time at university. I thrive on actively seeking out new challenges that not only enhance my skills but also inspire me to deliver innovative solutions, all while maintaining an unwavering attention to detail. While my current skills lie in front-end web development, my desire to excel in full-stack application development, including mobile applications, is exceedingly high. I embrace a mindset of constant growth and improvement, consistently pushing myself to expand my abilities and I'm dedicated to becoming a versatile and proficient developer, delivering impactful digital experiences.

Technical Skills

- HTML/CSS
